

PHASE 1 PILOT PROGRAM

100%

100% of those that provided feedback stated the program improved their quality of life, helped them understand themselves better, and would recommend The Wild Hope to others.

280

We were able to provide 280 total hours of Trauma-Focused, Equine Therapy to participants at **no cost** to them..

7 female survivors of sex trafficking participated in the program.

Participant ethnicity included white/caucasian, black/african american, and hispanic/latino.

Participants worked alongside a total of 9 horses and 3 donkeys during sessions.

Testimonials

"The therapists were very knowledgeable and taught me things I didn't know about how being trafficked affected me."

"Without this program I never could have afforded therapy, muchless equine therapy!"

"Working with my horse made it easier for me to go to therapy. I looked forward to seeing [my horse partner] at sessions."
